

Using Smart INK on PowerPoint

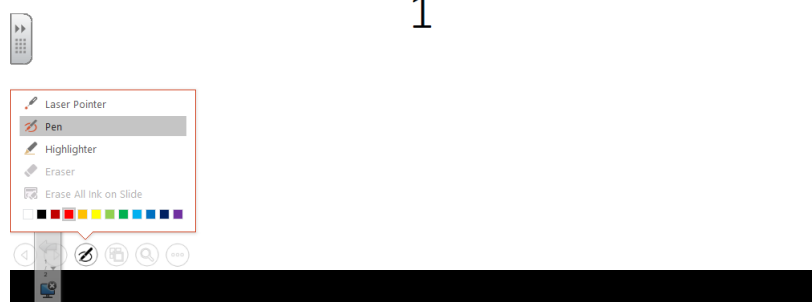

1. Open a Microsoft Presentation and click on the Smart Ink Tab at the top.
2. Change the mode from Smart Ink to Microsoft Ink.

3. Then go to the slide show option at the top and in the monitor top choose primary monitor.

4. Open the PowerPoint in presentation mode and click the pen symbol at the bottom of the screen, then choose pen from the list. The Smart Board pens should now work on the presentation.
